It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Seating Arrangement Questions.

Seating Arrangement Questions

Direction: Read the following information carefully and answer the questions. There are eight persons are sitting in a circular table. Four of them are facing the centre and four of them are facing away from the centre. Two person sits between J and N (either from the left or right). Two persons sits between K and Q. Q is sitting third to the right of J. Immediate neighbours of N are facing opposite direction to N. P is facing opposite direction to Q. O is sitting second to the right of N. K is sitting third to the right of P. L is facing the centre. There are two persons sitting between L and P. N is sitting immediate left of L. Immediate neighbours of L are facing same direction. M sits third to the right of O.

Question

Who is an immediate left of M?

Difficulty : Moderate

Average Time : 65 Seconds

Options :

1. Q
2. P
3. K
4. O
5. N

Solution

The correct answer is **option 1 i.e. Q**

- 1) L is facing the centre.
- 2) There are two persons sitting between L and P.

3) N is sitting immediate left of L.

4) K is sitting third to the right of P. (Here, we have two possibilities)

Case 1

Case 2

5) Two persons sits between K and Q. (Here, case 1 gets eliminated)

Case 2

6) Q is sitting third to the right of J.

7) O is sitting second to the right of N.

8) Two person sits between J and N (either from the left or right).

9) M sits third to the right of O.

10) P is facing opposite direction to Q.

11) Immediate neighbours of N are facing opposite direction to N.

Thus, Q is an immediate left of M.

Hence, the correct answer is **Q**.
