

Series Questions Overview

Series Questions have a good weightage in the Banking Exam and the type of question asked in Banking exam is similar to the question mentioned below. It has been solved and explained by Gargi.ai Experts and they have tried to elaborate the concept used in Series Questions.

Series Questions

Directions: Study the following alphabet series and answer the questions given below. L # V 3 / N W + 6 J Y K @ S T 8 C 2 F 9 E > 4 H % G * &

Question

Find the next element in the following series. L, V, N, J, S, _____

Difficulty : Moderate

Average Time : 37 Seconds

Options :

1. E
2. H
3. F
4. G
5. None of these

Solution

The correct answer is **option 3** i.e. **E**.

The series given in this question is:

L # V 3 / N W + 6 J Y K @ S T 8 C 2 F 9 E > 4 H % G * &

In this question we have to first identify the pattern. The pattern is after first element that is **L** one element is left and the next element is written that is **V** and after **V** two elements are left and the third element is written that is **N** and after **N** three elements are left and next element is written that is **J** and after **J** four elements are left and fifth element is written that is **S**. Now as we can see each time one element which is being left is added to the number of left elements, so after **S** five elements will be left and the next element will be **F**.
